Back-of-print tag template, A1 (841 × 594 mm), tiled on A4

15 tile pages: 3 rows × 5 columns, each overlapping the next by 10 mm.

1. Print at 100% / Actual size (no scaling, no 'fit to page').
2. Measure the 100 mm bar on this page. If it is not 100 mm, fix the print settings.
3. Trim the white paper margin off the LEFT edge of every tile except column 1,
   and off the TOP edge of every tile except row 1, exactly at the printed edge.
4. Lay each trimmed edge over its neighbour's grey overlap band, with the edge on
   the dashed line and the + alignment marks meeting. Tape. (Marks every 90 mm.)
5. Lay the A1 print FACE DOWN, top edge at the top. Align the assembled sheet's
   paper edge with the print's edge. Tag centres are the numbered cross hairs.
