Our Sydney Story: NFC tag-writing checklist

Write each tag with one NDEF URL record (NFC Tools: Write > Add a record > URL), test it with two phones, then tick. Lock tags only after the site is live and all 9 work. Then run: python3 build.py --lock

#	Tag / URL to write	Written	Tested
1	Blue Mountains (2 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/blue-mountains.html` back position: x 668.3 mm, y 220.9 mm from top-left (face down)	☐	☐
2	The Hills (2 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/the-hills.html` back position: x 305.6 mm, y 220.3 mm from top-left (face down)	☐	☐
3	Macquarie (2 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/macquarie.html` back position: x 262.3 mm, y 241.1 mm from top-left (face down)	☐	☐
4	Northern Beaches (3 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/northern-beaches.html` back position: x 164.6 mm, y 240.9 mm from top-left (face down)	☐	☐
5	Chatswood & Clarkes Point (2 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/chatswood-clarkes-point.html` back position: x 226.3 mm, y 270.1 mm from top-left (face down)	☐	☐
6	Granville & Harris Park (3 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/granville-harris-park.html` back position: x 312.6 mm, y 275.7 mm from top-left (face down)	☐	☐
7	City & East (18 places) `https://nambiarggautam-code.github.io/GKINSYD/memories/city-and-east.html` back position: x 193.0 mm, y 303.3 mm from top-left (face down)	☐	☐
8	Sydney Airport (1 place) `https://nambiarggautam-code.github.io/GKINSYD/memories/sydney-airport.html` back position: x 231.1 mm, y 342.2 mm from top-left (face down)	☐	☐
9	Figure 8 Pools (1 place) `https://nambiarggautam-code.github.io/GKINSYD/memories/figure-8-pools.html` back position: x 293.5 mm, y 502.2 mm from top-left (face down)	☐	☐
